

**CLAIMS**

1. A turbine for use in electricity generation, including pipework for gas or vapor entering or leaving the turbine, wherein the pipework comprises at least one substantially rigid pipe, having at least one section with a centerline curving in three dimensions:
2. A turbine as claimed in claim 1, wherein said turbine is a steam turbine, and said pipework is positioned between a boiler and the turbine.
3. A turbine as claimed in claim 1, wherein said turbine is a steam turbine, and said pipework is positioned between the exit of the turbine and a condenser.
4. Pipework for use with a turbine as claimed in claim 1.
